

## **Service as action ideas that can be performed individually, at home or in a digital environment:**

- Volunteer to digitally tutor students who need help with academic work or social skills. Take a photo of the digital learning.
- Start a community relief effort to help those unable to complete tasks on their own. This may include yard work, grocery shopping or picking up essential items. Remain socially distant and take photos with yourself included.
- Make cloth masks and donate them to hospitals, neighbors or community members. Take photos of the finished products.
- Contact teachers at your local elementary school and offer to help virtually. You might be able to read a story to the students or do a short lesson on how to adapt to virtual learning.
- Write letters or create art for residents of a local senior center that are currently not allowed any guests. Take photos.
- Lobby city/state officials to pass laws or ordinances of concern to you. Document your communication.
